*Construction Management:
Built On Professionalism*

Construction is a minefield.

We can help you through it step by step.

Our services include:

- Project Management;
- Construction Management; and
- Building.

Trinity Madison are qualified Quantity Surveyors with significant skills in the areas of Project and Construction management. The essence of our business is ensuring every project we undertake achieves the client's objectives. We will work to understand your requirements... and then deliver. The secrets to a profitable project are simple:

- Planning;
- Attention to detail;
- Value add; and
- Experience.

Planning:
We consider every aspect of the job – including the unforeseen and unexpected:

- demolition and site works management;
- building and external works;
- builders' preliminaries and overheads, and
- margins and contingencies.

The Trinity Madison planning process helps define your budget, establishes Return on Investment and reduces potential risk.

Attention to detail:
We specialize in making sure a comprehensive plan is adhered to, ensuring that:

- Contingencies are covered;
- Variations minimized; and
- Building control requirements are met.

“We will work to understand your requirements... and then deliver.”

Value add:
We take the trouble to understand your needs in person. Our hands-on approach ensures that those involved deliver to the required quality standards at the scheduled times.

We negotiate with suppliers to achieve the best value possible.

- Experience:**
We have experience in the following services:
- pre and post contract works;
 - estimate preparation;
 - value engineering;
 - design resolution; and
 - 10 years in construction.

Category of works include:

- Residential single and multi storey developments;
- Education facilities;
- Suburban commercial building and refurbishment;
- Health;
- Defence, and
- Industrial.

We have been involved with over 500 commercial projects.

Navigate the construction minefield with Trinity Madison. We offer:

- Experienced;
- Professional; and
- Value for Money solutions.

“The essence of our business is ensuring every project we undertake achieves the client's objectives.”
